HAND DRAWN
MULTI CHANNEL

4500-SERIES

G-RAIL[®]
ALUMINIUM RAIL

> *by Goelst*

Developed for heavy-duty contract and domestic use, series 4500 provides strength and multi-channel versatility for most curtain applications. With 2 and 3 channel profiles in the series, curtain overlaps can be created using the entire track length. Profiles 4550 and 4560, designed for incorporation within suspended ceilings, provide flush mounting and concealed fixing.

Standard colour: White RAL 9010. Special colours on request.
